

Welcome to TXI

TXI Ltd has over 10 years experience in providing Business Telecommunications Solutions.

Specialising in Hosted Voice over IP services TXI deliver fully managed tailored solutions to meet your business needs and budget. Whether you are looking for a telephone system and service for a small/home office or a large enterprise, we offer flexible, scalable and affordable telecommunications solutions supported by outstanding customer service.

Voice over IP has finally come of age - largely due to the increased band widths made available by Broadband technology.

Partnering with some of the UK's top ISP's, means that our Broadband services deliver the bandwidth and reliability that our customers demand.

As O2, T-Mobile, Orange, 3 and Vodafone resellers TXI offer independent advice and a free tariff analysis service to ensure that you are getting the best deal, service and handsets available for your remote workers.

Let TXI manage all of your Telecommunications requirements so that you can concentrate on doing what you do best - running your business!
